Manufactured using Australian standard approved materials for long-lasting durability, strength, and safe water storage for your family.

(AS/NZS 4766 is the Australian/New Zealand standard for rotationally moulded polyethylene storage tanks designed for water and chemicals)

- ✓ Made from durable UV-stabilised polyethylene.
- ✓ Engineered for strength and long-term performance.
- ✓ Manufactured and tested to strict quality standards.
- ✓ Designed for safe and compliant installation.
- ✓ Quality fittings designed for reliable performance.

### Standard Fittings

- Additional watermarked tested brass fittings or poly fittings are available on request (additional charges may apply)
- Available in 25mm, 40mm or 50mm. Poly welded fittings also available (additional charges will apply)
- Once your tank(s) are in their final position, your delivery driver will install the outlet and overflow.

Delivery Included direct to your site or home
