# Benefits of a Clark Tank

- ✓ Manufactured from high quality food grade UV stabilised polyethylene (No BPA).
- ✓ Will not change the taste or quality of your water.
- ✓ Polyethylene tanks do not rust or corrode.
- ✓ Can be linked together for even greater storage capacity.
- ✓ Superior design with tapered walls (above 5,000 litre).
- ✓ Once piece construction, No vertical side seams (apart from our slimline range).
- ✓ Proven history of long term use in the most demanding rural and urban applications.
- ✓ Come with quality Watermarked Fittings as standard:
  - 90mm S/S Overflow Strainer
  - S/S Inlet Strainer available
  - Watermarked Brass Outlet
  - Watermarked Ball Valve

Clark Tanks is one of very few Australian tank manufacturers that are certified to both the Australian Tank Standards.

**AS/NZS 4766:2006**  
Polyethylene Storage Tanks for Water and Chemicals  
Certification # 300/1
